

BRIGHT LIGHTS

According to a study by “Barna Group,” 64% of Christians made the decision to follow Christ by their 18th birthday. Another 13% made the decision by age 21.

Each summer at camp, we continue to see decisions for Christ!

CAMPER STORY

Rosie expressed to her counsellor that her week at camp was really good for her because she made the decision to follow God.

Before, she didn’t really understand what it meant to be a follower of Christ, but after her week at camp she felt everything made so much more sense. She is excited for what God has in store for her life, and the journey that He will take her on.

BRIGHT LIGHTS

For some, the thought of summer camp brings up great memories: time spent with new and old friends, the smell of a campfire, and the outdoors.

Previous generations of young people took aspects of camp life for granted. Every summer they would learn new skills, interact with new friends, and experience nature. **Today there are children who have never known the smell of a campfire, been in a canoe, or even seen the stars.**

At a time when kids are bombarded with fast-paced, instant information, and high pressure situations, time spent at camp is so important! It shapes who they are and changes their families. We have seen this time and time again.

Older students often return to work at camp because they've come to love this place of ministry that had such an impact on their lives and that of so many others.

WHY GIVE?

Our new Bright Lights campaign is designed help Camp Tulakadik continue to be a place of great impact.

We recognize that every camper with whom we are blessed has great potential to be a bright light in the world around them; not only for their current circle of influence, but for years to come.

The rising costs of insurance, power, staffing, and food have drastically affected summer camping. We're always trying to keep costs down to make camp attainable for as many students as possible.

Please consider joining others who have partnered with Camp Tulakadik. Your generosity lets us reach more and more campers who can be bright lights in their circle.
